

EMMANUEL OKAI-QUARSHIE-SHAFT

Location: Accra, Ghana | Email: shaftemmanuel7@gmail.com

PROFESSIONAL SUMMARY

Motivated Foundation Computer Science student at Lancaster University Ghana with a solid baseline in web development, basic programming, and hands-on hardware design. Proven team leader through campus initiative execution and hands-on technical projects. Seeking a General Tech Internship to apply skills in software fundamentals, web design, and hardware integration.

EDUCATION

Lancaster University Ghana — Accra, Ghana

Expected 2027

Foundation Program (Path to BSc Computer Science)

- **Relevant Coursework:** Computing Fundamentals, Introduction to Programming Concepts, Web Development Essentials, Quantitative Methods, Academic & Professional Communication.

DPS International — Tema, Ghana

A-Level Certification

- **Relevant Coursework:** A-Level Computer Science, Physics & Applied Science Projects.

TECHNICAL & PRACTICAL SKILLS

Programming & Web:	HTML5, CSS3, JavaScript, Python (Foundational)
Hardware & Electronics:	Arduino Microcontrollers, Sensor Integration, Circuit Wiring
Software & Multimedia:	FL Studio (Audio Engineering & Music Production), Git/GitHub (Basic)
Soft Skills:	Team Leadership, Project Management, Technical Problem-Solving, Communication

PROJECTS & LEADERSHIP EXPERIENCE

Web Development Projects

- Developed interactive front-end web applications, including a functional Standard Calculator and a Body Mass Index (BMI) Calculator.
- Implemented core application logic using JavaScript and structured clean, responsive UI layouts using HTML5 and CSS3.

Obstacle Detection Remote-Controlled Car

- Designed and assembled a remote-controlled vehicle equipped with obstacle detection capabilities for an A-Level Science project.
- Integrated microcontrollers, physical electronic components, and sensor modules to enable autonomous barrier recognition and directional navigation.

Project Team Lead – Campus Benches Refurbishment

- Led a student project team during Foundation Term 2 to redesign and restore outdoor campus seating at Lancaster University Ghana.
- Managed project execution, task allocation, surface preparation, and visual redesign to improve overall campus amenities.
